

## **EXHIBIT B**

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**Docket Number (Optional)  
13058.105001

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,343,063, granted January 29, 2002, and for which a reissue patent is sought on the invention entitled Machine-Readable Optical Disc with Reading Inhibit Agent,

the specification of which

 is attached hereto.

was filed on January 29, 2004 as reissue application number 10/767,961  
and was amended on 6/30/06; 1/14/08; 3/12/08; and 4/15/09.

(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

 by reason of a defective specification or drawing. by reason of the patentee claiming more or less than he had the right to claim in the patent. by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

This is a broadening reissue application. See attached Addendum to Reissue Application Declaration by Inventors.

[Page 1 of 2]

This collection of information is required by 37 CFR 1.175. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

## (REISSUE APPLICATION DECLARATION BY THE INVENTOR, page 2)

Docket Number (Optional)  
13058.105001

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.

Note: To appoint a power of attorney, use form PTO/SB/81.

**WARNING:**

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.

Atty. Docket No. 13058.105001

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

Patentees: Rollhaus *et al.*

Patent No.: 6,343,063

Issue Date: January 29, 2002

Reissue Application Serial No.: 10/767,961

Title: MACHINE-READABLE OPTICAL DISC WITH READING-INHIBIT AGENT

**ADDENDUM TO REISSUE APPLICATION DECLARATION BY INVENTORS**

This is a broadening reissue application. I further declare that exemplary errors upon which the reissue application is based include:

- The omission of claims to an optically-readable medium having an information encoded region, at least one reading-inhibit agent, and an enclosure enclosing the optically readable medium.
- The omission of claims to an optically-readable medium having a substrate having information encoded features with a reflective layer and a reading-inhibit agent that prevents at least a portion of the information encoded features from being read wherein said reading-inhibit agent provides a short effective life for the optically readable medium.
- The omission of claims to an optically-readable medium comprising an enclosure and a reading-inhibit agent selected from one or more of an oxidizable material, a dye, a hygroscopic material, or a photoreactive material.
- The omission of claims to an optically-readable medium comprising a reading-inhibit agent providing a short effective life for the optically-readable medium, the reading-inhibit agent selected from one or more of an oxidizable material, a dye, a hygroscopic material, or a photoreactive material.
- The omission of claims to an optically-readable medium comprising a reading-inhibit agent where the short effective life for the medium is determined by the number of times the optically-readable medium is read by an optical beam.
- The omission of claims to an optically-readable medium comprising a reading-

inhibit agent providing a short effective life for the optically-readable medium, the reading-inhibit agent corroding at least a portion of the information encoded features on the optically-readable medium.

- The omission of claims to an optically-readable medium comprising a reading-inhibit agent providing a short effective life for the optically-readable medium, the reading-inhibit agent, once activated, interfering with an optical beam for reading the optically-readable medium.

I further declare that all errors corrected in this reissue application arose without any deceptive intention on the part of the applicants.
